

Your Task Was...

You must find a way to keep your household running. That means you need to feed your children and pay all the bills. This could mean a whole bunch of different scenarios, but that will be up to you to decide. You need to figure out what best works for you. You need to decide the following;

- » Where are you going to get money? (job, social assistance, etc...)
- » How will you care for your children? If you go to work, who will watch them? How will you get to work? If you don't work, how are you going to pay your bills?
- » Where are you going to live? What is your cost of living?
- » How much do you need for groceries? Clothing? Entertainment?
- » How will you keep yourself sane? You can't just work and parent 24/7. You will need to work in a time of your day/week that is for you. Is that going to cost? What will that look like?
